

# SPE9ES SHOTBLASTER

## EFFECTIVE ON BOTH CONCRETE AND STEEL

The SPE9ES is our most popular shotblaster, ideal for contractors, and the rental industry.

Forward and reverse travel makes it easier and faster to move around your work space.

Fully machined blast-wheel support bearing assembly eliminates bearing problems and automatically self-aligns blast wheel components.

### FEATURES

- Manganese steel construction
- Fully adjustable handle height
- "Dead-man" handle automatically starts/stops blastmotor and opens/closes shot valve
- Front and rear supports wheels fully adjustable in height
- Grill fitted into hopper assembly to keep foreign objects from entering the blastwheel and causing damage
- Optional magnetic/steel seal system available
- 400V/460V optional high-power blast motor available
- Removes old coatings
- Provides non-slip surfaces
- Laitance removal on new concrete floors
- Texturing power floated concrete
